is a wise step and will very much influence the methods of teaching in many of the different parts of the Ter is a wise step and will very mach influence the methods of teaching in many of the different parts of the Territories. The atandard of qualification for teachers at the Territoried examinations have been very low, and is still very low, if the last teachers examinating the property of the property of the last teachers examinated the property of the last teachers examinated the property of the property of the last teachers examinated the property of the prope very low, if the list teachers examinaof proficiency. The time has comwhen the qualification of first and second class teachers should be equal, at least, to the standards in the same grades for Manioba, and those who are interested in he thorough education of the young will hear with de-light that the standard of qualification will be raised. Not multraining under a thoroughly qualified teacher will very materially add to the qualifi-cation of the teacher and will, at least instruct them in the proper methods of teaching which will take the standard of very many schools throughout the

The Executive has employed a gen thomas theroughly competent to direct the educational affairs of the Territo rice, and there is no doubt that under bis expervision the territorial schools will soon rank on an equality with those of the oder provinces. The school system wants parging frome most objectionable features, and which it is to be hoped that Mr. Goggin will be enabled to have rectified. THE TIMES does not in this article intend to refto the objectionable clause in the school Ordinance, but desires to refer sions. It seems that it is the intention of the Executive to hold three sessions for the training of teachers, two of which will be held in Reg no and one in Calgary. From this it would appear that Assinibola and Alberta shall have all the benefits that can be cust in their way by the pre-sent Executive committee. THE TIMES claims the same rights for the Suskat chewin as are accorded to the other districts in the North West Legisladistricts in the North West Legislature. At present it is proposed by the
Executive to hold a Normal session for
three months at R gina, beginning in
Quicker, for the purpose of inattracting
those holding first and second class
certificates and the inspection of
school. After this these will be two
held for those holding third class cer

It is a great injustice that the teachers
of the Sackatchewan should be forwal

In the interests of these parties who would like to visit the Chicago Worlds Fair but are unable to do so on count of the rush of business and inc many exigencies attending the harvesting of our large crop we have been success'ul in getting the principa dup ieste part of the grand agriculart' exhibit brought to Prince Albert To demonstrate this fact we have ou view and in working order in our spacious show rooms,

The McCormick Binder. A Machine of Stee!

Which bests the world's record in the field and which we unhesitatingly recoram nd to be the lightest draft of ill the many self binding harvesters.

Its durability and capacity have never been questioned. It is the King of machines, and proudly floats, the banner, "The Best in the World."

THE M'GORMICK NO. 4 STEEL MOWER.
